	<p>and to have accountability in place for the care of the equipment and training.</p> <p>Bonnie Ell mentioned that Alice Taylor has submitted her CAC resignation effective immediately. She has greatly enjoyed her involvement on the CAC and wishes us the best. Her other commitments and travel don't allow her to be involved as she would like.</p> <p>Gordon Clay noted that the BHHS high school does already have 4 AED pieces of equipment and that the high school should have responsibility to ensure the safety of their athletes and ensure safety of the equipment.</p> <p>Connie Atwood made a motion to support the Coastline Neighbors proposal.</p> <p>Dori Statton made a motion to fund the 4-H scholarship program and Healthy Relationships program at a total of \$2,500.</p>		
<p>3.0 Advanced Health Chief Executive Officer</p>	<p>Ben Messner, CEO of Advanced Health provided an update of the Oregon Health Authority (OHA) and the general approach of our next contract phase with CCO 2.0.</p> <p>With CCO 2.0, which will begin in 2020, we are at the end of our contracting phase and we hope to receive the awarded contract by September 27, 2019.</p> <p>Regarding OHA, there has been a shift and a realignment of their processes- moving from a very rigid, highly regulated insurance-based structure to now a more community-based structure (more focus on community benefit vs. a profit-based structure).</p>

	<p>Ben stated that 'we hear you.' We understand there have been barriers and concerns and we acknowledge them.</p> <p>A next big focus will be to first align Behavioral Health services to be coordinated with primary care providers- for them to form teams and work together.</p> <p>Ben is eager to gain input from the community and to hear the voice of our consumer members and to work together moving forward.</p> <p>Ben asked the CAC for input regarding Advanced Health's involvement in the development of the proposed ER in Brookings.</p> <p>Beth Barker-Hidalgo noted concerns about the difference between Urgent Care and the ER in Brookings and how will visits be coded. Will there be set hours of operation to distinguish between the two? That is a question the CAC and community is wanting to know.</p> <p>Elaine Lortscher noted the following concerns related to interference by insurance that limits the needed medication for patients and housing and how all of the breakdown in the coordinated services really has a harmful impact on patients and community members.</p> <p>Connie Hunter mentioned that the state is willing to give \$2 million to help with the development of the ER in Brookings. Ben Messner acknowledged that and stated that Advanced Health could potentially step in to fill the gap in the interim. Connie noted the need to provide behavioral health support and services to assist veterans and their family members would be greatly appreciated.</p>

September 26, 2019 Meeting Minutes

	<p>Beth Barker-Hidalgo mentioned that behavioral health integration must be required with any funds given to Curry Health Network (CHN) and she pleaded that the requirement be listed in the contract moving forward with the development of the ER or any other developments provided to CHN.</p> <p>Ben Messner reiterated that emergency services would be covered at Sutter Coast Hospital and we could move forward with contracted services at Sutter, but that would undermine the partnership with Advanced Health to develop the new ER in Brookings. Ben noted that Advanced Health does contract with Asante.</p> <p>Gordon Clay noted that Advanced Health and the CCOs need to be able to contract with local/private therapists. Ben noted that Advanced Health will now contract with multiple behavioral health providers, not just Curry Community Health in Curry County, including emergent mental health services. Ben mentioned there are some holes in the system that Advanced Health can help fill.</p> <p>Melanie Caldera from Oasis Shelter Home noted that they have been trying to get a forensic program for sexual assault going as an emergent situation and it has not been successful. She noted there is a need to address sexual assault and forensic exams in the emergent care system and we need to pay attention to this.</p> <p>Ben Messner mentioned that Advanced Health (AH) has included CAC consumer members on the AH Board, but the processes were not in place to help carry their voices to help implement change. Ben made the ask for Curry CAC members to join the Advanced Health Board</p>

	<p>and that he would leave applications for anyone to fill out who is interested. The meetings are once a month at 7:00 am.</p>		
<p>4.0 Updates from AH Compliance Officer, Adam Martin</p>	<p>Adam Martin stated that he is here to help explain how Advanced Health will be following the new model of CCO 2.0 to best follow the new rules and regulations, using an ‘ears to the ground’ model. Adam wanted to provide us with a way to contact him/Compliance Department of Advanced Health to notify of anything that seems a little off-track (does Advanced Health need to contact one of the provider offices to make sure they are meeting the standards to keep personal information confidential, are they meeting other important guidelines, etc). If we ever have concerns about contract requirements, other concerns due to keeping Health Information Portability & Accountability Act (HIPAA) information safe and secure, etc, contact: cco.compliance@advancedhealth.com or call the direct line and ask for a compliance officer.</p> <p>Sherrie Estelle asked if Adam was involved with the letter that went out to members regarding a potential breach in confidential information. He noted that Advanced Health was taking the needed steps to advice members, but that there actually wasn’t a breach to the level they thought. Sherrie noted that a follow up letter would have been nice to acknowledge the status of that issue, which affects people’s mental health. Adam assured the CAC that all the necessary information was provided to OHA and we worked with them to maintain safeguards to protect members.</p>		
<p>5.0 Updates from OHA</p>	<p>Oregon Health Authority (OHA) CAC update</p>
