

**Effective January 1, 2026,  
Advanced Health members are eligible for  
30 habilitative and 30 rehabilitative  
therapy sessions annually.**

Additional visits will require prior authorization.

To ensure accurate billing and reimbursement of services, it is now required that all claims for physical, occupational and speech therapies, as well as chiropractic care, be submitted with the appropriate modifiers, in the first position.

Habilitative services must be identified with modifier 96, while rehabilitative services must be marked with modifier 97.

Failure to use modifiers may result in denied claims.

Please contact Customer Service at:  
(541) 269-7400 with any questions.
