

SWOIPA
Southwest Oregon IPA

**Effective January 1, 2026,
Advanced Health members are eligible for
30 habilitative and 30 rehabilitative
therapy sessions annually.**

Additional visits will require prior authorization.

To ensure accurate billing and reimbursement of services, it is now required that all claims for physical, occupational and speech therapies be submitted with the appropriate modifiers, in the first position.

Habilitative services must be identified with modifier 96, while rehabilitative services must be marked with modifier 97.

Failure to use modifiers may result in denied claims.

Please note; other therapies, such as chiropractic services, are not subject to this modifier requirement, but may have other limitations.

Please contact Customer Service at:
(541) 269-7400 with any questions.
